Dear Mr. Fast:

I am applying for the position of an intern at your company. I learned about the position through my English instructor, Jodi Silva. I am passionate about working in design and am committed to becoming successful with the help of this internship position.

Since August of 2022 I have been enrolled in a web applications class at the Center for Advanced Research and Technology, where I have been self-motivated to attend with punctual attendance. In this class I have learned programming languages such as HTML and CSS, as well as software such as GitHub, Visual Studio Code, and Figma. In school I took AP Computer Science Principles where I learned the programming language: JavaScript. I have worked in teams with my peers to revise work and receive constructive feedback on website prototypes.

I would like to be considered for an interview for the position of an intern. I follow the qualifications that the job requires and I have a passion to work in design. The best way to contact me would be an email at any time convenient to you. Thank you for taking the time to review my application.

Sincerely,

*Emiliano Cereceres*
